## Customized Broaching Solutions

**We offer customized broaching solutions for ALL YOUR BROACHING REQUIREMENTS. Whether you require Broach Cutting Tools a Turnkey broaching system, production broaching services or parts and service for your existing machines, DBX Systems is the only source you need.**

We design and manufacture all types of broach tools including; involute and straight spline broaches, standard and custom keyway broaches, internal hex, square and round broaches, pot broach tools for external gear tooth broaching, pot and blind spline broaching, braised carbide inserts used primarily for broaching of cast iron, broach tools for firearms broaching applications and special broaches for unique broaching applications. We also can provide one week turn-around on select re-sharpening services and our robust inspection process ensures that your broach tools will be thoroughly vetted and qualified prior to shipment.

### QUALITY EQUIPMENT

### Specializing in Automotive, Stamping, Construction, Tubing & Heavy Equipment

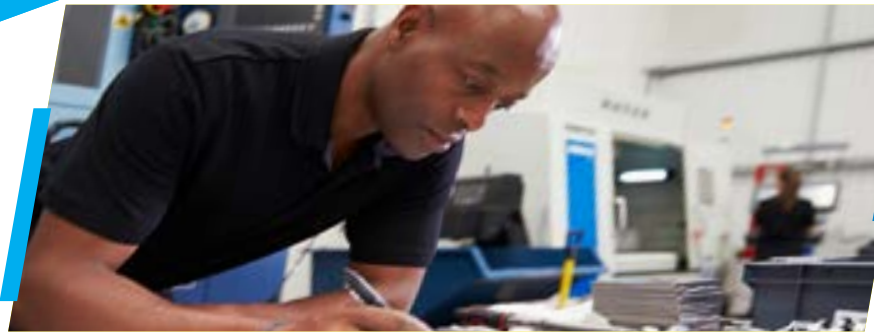

#### New Machines

NEW BROACHING MACHINES including; the "CELL-MATE" and "DUAL-DRIVE" INTERNAL VERTICAL TABLE UP, the "CRUISER" SINGLE RAM HIGH SPEED VERTICAL SURFACE BROACHING MACHINE, the "GP" INTERNAL HORIZONTAL as well as custom designed machines for unique broaching applications.

#### Pre-Owned Machines

We have a large inventory of pre-owned broaching machines with OVER 300 BROACHING MACHINES AND BROACH SHARPENERS IN STOCK. These machines are offered "As-Is", Reconditioned or Completely Remanufactured to new machine specifications. All used machines are available as turnkey systems including all required engineering, tooling and SPC run-off. We provide warranty for rebuilt and re-con machines.

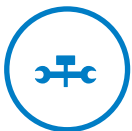

DBX Systems and Broaching Machine Specialties have joined to offer broaching solutions for ALL YOUR BROACHING REQUIREMENTS. Whether you require Broach Cutting Tools a Turnkey broaching system, production broaching services or parts and service for your existing machines, DBX Systems is the right choice.

## Production & Broaching Prototype Broaching

We offer PRODUCTION BROACHING SERVICES. Our in house engineering department and technical service staff ensures that your part shipments are on time and in tolerance!!

## Parts and In field Service and Repair

We also offer parts and service for nearly every make and model broaching machine manufactured in the US since the 1940's. Call us first for hard to find parts or the technical expertise required to keep your machine in production when you need it most

## Service Excellence

The strategic alliance between the two companies has created DBX Steel, a certified MBE servicing a variety of markets. We draw from one of the areas largest inventories of prime hot rolled, coldrolled, coated, and high strength steel. Contact a DBX Steel sales professional when quoting your next program.
